Tidal Treasures

Artis, for all of your coastal themed tabletop solutions.

Bring the serene beauty of the shoreline to the table with tidal treasures – a curated trend celebrating all things coastal.

Marine inspired tableware, combining motifs and textures in shades of blues and neutrals, shell inspired dishes and glassware and a collection of wave inspired barware.

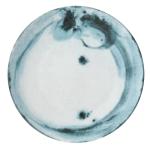

Designed for any space that craves a touch of the tides and encourages guests to dine with a sense of calm and serenity.

Azurine Carafe

A new take on the Ensemble carafe with the eye-catching design of Azurine.

The cobalt blue wave runs through the front of the carafe adding a new dimension to water and juice presentation.

Waves Bar Coolers

The new collection of barware presentation pieces in both stainless steel and acrylic feature an eye-catching wave design to elevate your wine and champagne drinking experience with a contemporary twist.

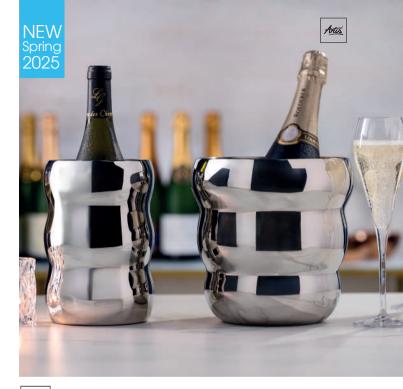

The sleek stainless-steel double walled wine cooler and champagne bucket add sophistication and style to the table, whilst the stainless-steel construction aids temperature retention, keeping drinks cooler for longer.

The Acrylic buckets are ideal for AI Fresco dining and outdoor events keeping wine and champagne chilled whilst also being highly practical.

SCHÖNWALD Germany

Noble China – Refined, Alumina Strengthened Vitrified Porcelain

Ultra Smooth High Fired Glaze

The exceptionally high firing temperature of over 1,400c delivers an exceptionally hard, strong and ultra smooth glaze which is resistant to abrasion. This results in a surface which is easy to clean and does not suffer from permanent marking, therefore, showing your food off to perfection. The extended life delivers excellent cost in use.

Bone China White Vitrified Porcelain

Noble China is fired in the kiln to over 1,400c making it extremely dense, very strong and resistant to the ingress of water and thus a very hygienic surface on which to serve food. The firing temperature and profile delivers a fully vitrified porcelain which complies with the performance requirements of BS4034 Vitrified Hotelware.

Alumina Strengthened

The body includes the addition of Alumina which helps enhance the bone china white lustre and conveys exceptional strength and durability. This helps to achieve excellent cost in use on a refined, thinner profile for the perfect fine dining experience.

Designed for Performance

Noble China has been design engineered with performance and functionality in mind to withstand the rigours of a busy commercial environment. Rounded, strong edge profiles prevent chipping and the stackability of key shapes aids space saving and back of house storage, resulting in less breakages.

Optimum Heat Retention

The dense nature of the Noble China body which is created through the firing process and vitrification means the product will hold on to heat for longer periods of time, therefore, keeping food and drink at an optimum temperature during food service.

Dishwasher, Oven, Microwave and Freezer Safe

Noble China has been designed and developed to be highly resistant to the detergents and chemicals used in industrial dishwashers. The very high temperature firing makes all of our products oven safe to the maximum temperature of a commercial oven, however, to prolong the life of your product we do not recommend a very extreme/abrupt temperature change of greater than +/- 220K.

Shaped by Responsibility

Quality assurance is a major factor in the production of Noble China products and this is reflected through the commitment to increase the yields of finished products and thus reduce the raw material consumption. Autonomous, highly efficient energy production generates electricity and heat. Enhanced environmental performance is achieved for our customers through our environmental programmes and we are certified to International Environmental Management Systems ISO 14001 and Energy Management ISO 50001.

5 Year Edge Chip Warranty and 3 Year Limited Glaze Abrasion Warranty

The performance of the product and glaze is outstanding and has been designed to withstand the demands of busy commercial kitchens and restaurants.

Professional Vitrified Porcelain

Ultra Smooth High Fired Glaze

The exceptionally high firing temperature of over 1,400c delivers an exceptionally hard, strong and ultra smooth glaze which, is resistant to abrasion. This results in a surface which is easy to clean and does not suffer from permanent marking, therefore, showing your food off to perfection. The extended life delivers excellent cost in use.

Super Vitrified Porcelain

Schönwald is fired in the kiln to over 1,400c making it extremely dense, very strong and resistant to the ingress of water and thus a very hygienic surface on which to serve food. The firing temperature and profile delivers a fully vitrified porcelain which complies with the performance requirements of BS4034 Vitrified Hotelware.

Quality Raw Materials

The product uses the best raw materials and a sophisticated composition including kaolin, quartz and feldspar. This creates a highly appealing durable porcelain with an exceptionally strong and smooth glaze and bright white finish providing a cost effective long term solution.

Designed for Performance

Schönwald has been design engineered with performance and functionality in mind to withstand the rigours of a busy commercial environment. Rounded, strong edge profiles prevent chipping and the stackability of key shapes, aids space saving and back of house storage resulting in less breakages.

Optimum Heat Retention

The dense nature of the Schönwald body which is created through the firing process and vitrification means the product will hold on to heat for longer periods of time, therefore, keeping food and drink at an optimum temperature during food service.

Dishwasher, Oven, Microwave and Freezer Safe

Schönwald has been designed and developed to be highly resistant to the detergents and chemicals used in industrial dishwashers. The very high temperature firing makes all of our products oven safe to the maximum temperature of a commercial oven, however, to prolong the life of your product we do not recommend a very extreme/abrupt temperature change of greater than +/- 220K.

Playground – No Limits

Bring an air of playfulness and fun back to the dining experience. Playground is a collection of contemporary stoneware in a range of innovative shapes combining striking glaze finishes with texture and colour to appeal to the latest gastronomic trends in food presentation.

PLAYGROUND

Contemporary Stoneware

Playground is a collection of rustic stoneware products of the highest quality offering elegant tableware concepts that meet the requirements of todays customers.

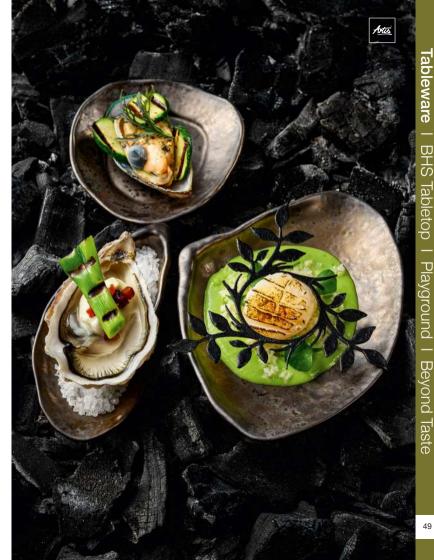

The collection takes on board the mix and match principle so popular in the modern dining experience and has designed products to mix with our porcelain brands to create striking combinations.

Tapping in to the multi sensory experience through the use of bold shapes combined with multiple textures, striking glazes and depths of colour to create a mood and an emotional response to dining.

Our collections Embrace and ReNew is an innovative product made from 90% recycled ceramic material to deliver the latest in ecoresponsible ranges.

All of our Stoneware products are dishwasher safe, heat resistant and suitable for a microwave.

The full collection of Playground combines multiple material combinations such as glass, wood, stainless steel, stone and marble and can be viewed on our Artis website or by contacting us for further details at: sales@artis-uk.com Tel: 020 8391 5544

Nami Dune

The organic design of the Nami Dune stoneware range emphasises the whole philosophy around wholesome food and ingredients.

The soft fluted edge and the subtle, textured glaze with a colour reminiscent of sand dunes create a relaxed design whether in a casual fine dining or upscale gastronomy setting.

The oval and round plates, bowls and dip dishes are also ideal for snacks in lounges and bars.

THE R. P. LEWIS CO., NAME OF TAXABLE PARTY.

Drinkware

The art of elegance, strength and technology

Master Glassmakers since the 14th Century

High Precision Lead Free Crystal Glass for professional use

Lead Free Crystal glassmakers specialising in the production of elegant, ultra clear glassware, perfect for the professional market.

With a strong commitment to innovation utilising traditional Italian craftsmanship and new-age glassmaking technology to create beautiful glassware of the very highest quality.

Luigi Bormioli is committed to using the most sustainable and environmentally friendly methods of production.

TITANIUM Reinforced®

A patented anti abrasion treatment on glass stems using titanium to reinforce it permanently.

It increases the stem's resistant to breakages by 140%, even through multiple dishwasher cycles and helps maintains transparency and sparkle.

Enhanced Stem Technology to Permanently Increase the Resistance to Breakage.

Features and Benefits

 Resistance of the rim – Offering additional overall strength

Resistance to impact – High

+105%

resistance to breakage and less chipping

 Resistance to twisting of stems – Whilst washing and drying of product

+4000

• Dishwasher safe - Transparency and brilliance over 4000 industrial washing cycles

Mechanical Properties

Glassware made with SON.hyx crystal has improved resistance to mechanical shocks Laboratory tests have given the following results:

- Up to 37.5% increase in rim strength.
- Up to 105% increase in resistance to mechanical shocks.
- Up to 98% increase in resistance to breakage through twisting at the stem during hand cloth drying.

Chemical Properties

Tests have demonstrated that SON.hyx crystal glassware has an exceptional resistance to industrial dishwasher detergents and chemicals. After 4,000 wash cycles in commercial dishwashers SON.hyx crystal glassware retains all its original properties.

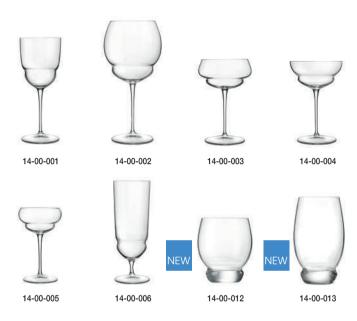

Back to the 20's - " The signature cocktail glass"

Introducing two new contemporary tumblers, the Bramble and the Whiskey to this inspiring signature cocktail collection.

Step into the elegance of a bygone era of the 1920's, each glass is designed to enhance the overall taste experience and elevate the presentation of individual cocktails.

The heavy based oversized tumblers have been designed to provide plenty of room for ice and garnish where cocktail presentation is key.

ODDIS THE FINISHING TOUCH Introducing ONIS, The iconic brand for professionals

Any drink, whether it's a cocktail or beer, is best enjoyed in a glass that enhances its taste, smell and appearance. At Onis, we truly believe the right glass adds value, as it's the first impression of the drink to your guest. We want the right glass to enrich the flavour and aroma of your drink to make it even more enjoyable. But we also want it to stand out.

••

If the rim & foot of any product covered by the Onis Rim Guarantee chips, LCG will replace or refund the price of the glass. The product must have been purchased via Artis in the UK and returned, through your distributor, to Artis, to qualify for the Guarantee. Breakages are not covered by this Guarantee.

WHAT SETS OD'S APART

EXTRA TOUGHENED

FINESSE LASER CUT RIM

STACKABLE

ENHANCER

An additional heat treatment process targeted at the rim of the stemware and tumbler products. Increasing the resistance to thermal and mechanical shock resulting in a very strong glass with prolonged life in service.

An after process which results in a very fine polished rim offering the ultimate lip feel and pure taste experience.

Designed to achieve ultimate stackability delivering optimum space saving behind the bar and a longer life in service. The stacking ring feature supports the stack rather than the rim and helps prevent damage.

Developed to maximise the aroma and flavour for an enhanced tasting experience.

Leading edge technology for exceptional glassware performance

For over 200 years Libbey has been an expert in producing glassware for professionals.

Offering a variety of glassware from functional stackable tumblers to elegant and lightweight wine glasses. Working closely with spirited foodservice professionals to produce distinctive showstoppers to fit the latest trends.

High quality, ultra durable glassware backed by trusted guarantees.

Libbey Safedge Rim Guarantee If the rim of any glass covered by the Safedge Rim Guarantee chips, Libbey will replace or refund the price of the glass The product must have been purchased via Artis in the UK and returned, through your distributor, to Artis, to qualify for the Guarantee. Breakages are not covered by this Guarantee.

Libbey Safedge Rim and Foot Guarantee

If the rim or foot of any glass covered by the Safedge Rim and Foot Guarantee chips, Libbey will replace or refund the price of the glass. The product must have been purchased via Artis in the UK and returned, through your distributor, to Artis, to qualify for the Guarantee. Breakages are not covered by this Guarantee.

An additional heat treatment process targeted at the rim of the stemware and tumbler products. Increasing the resistance to thermal and mechanical shock resulting in a very strong glass with prolonged life in service.

FINEDGE

Precision manufacturing produces a rim with a minimum bead delivering a more chip resistant edge and fine lip feel.

HEAT TREATED

A special heating and rapid cooling process strengthens the upper portion of the glass increasing resistance to thermal and mechanical shock.

One piece stemware is the perfect balance of weight, functionality and aesthetics. It is inherently stronger than other stemware, formed from one piece of glass so there are no weak points.

Iconic one piece stemware is the perfect balance of weight, durability & elegance.

Elevate your drinking experience with the full range of Libbey one piece stemware, produced from high quality glass combination of functionality and elegance. A proven leader in the industry for performance, durability and reliability.

The seamless one-piece construction ensures added strength and resilience, whilst the crystal-clear clarity of the glass enhances the colours and aromas of the wine.

A full range of wine glasses to suit all types of establishments from large scale events to smaller scale restaurants all concerned with the elegance and performance of the glass.

Brillance and **Delicacy** one piece stemware combine elegant style with durability, taller and slimmer stems offering a more refined version of wine glass where cost in use is a driving factor.

Perception and **Teardrop** with a lower, wider stem are specifically designed for fast paced, high turn around operators where safety and durability are of the upmost importance.

Embassy and **Sequoia** are also part of the one piece collection offering glasses for all types of drinks from cocktails, beers and brandy.

One piece stemware is the perfect balance of weight, functionality and aesthetics. It is inherently stronger than other stemware, formed from one piece of glass.

The advantages of Libbey one piece stemware:

- One piece construction means no joins or weak points
- Crystal clear glass for enhanced wine presentation
- Strength and resilience reduces number of breakages
- Cost in use due to exceptional performance and durability
- Choice of wide shapes and stem width depending on operator
- Lifetime Libbey Rim / Foot guarantee

Artis

Teardrop – Curved & Robust

The iconic shape of the teardrop wine glass has the perfect combination of style and strength, with a shorter stem for ease of handling and cleaning.

Durable design ensures exceptional longevity in high volume venues where durability and performance are paramount.

This one-piece construction is available in a wide range of sizes and capacities to suit all types of establishments.

Perception - Strength & Style

Experience the perfect balance of style and strength with Perception one-piece construction with a classic and generous bowl-shaped design.

The shorter stems create a lower balance point for ease of handling and storage making them ideal for banqueting and busy, fast-paced environments.

A comprehensive and extensive range of wine and cocktail glasses and tumblers, expertly crafted to enhance a wide variety of beverages.

LA ROCHÈRE 1475 FRANCE

French Artisan Design – Creators of Glass Since 1475

La Rochère has made a name for itself since 1475 through its passion for innovation. The making of stylish and beautiful glassware thanks to products such as Abeille, a bee collection inspired by Napoleon's coat of arms.

Producing artisanal glass for more than 500 years, making it the oldest continuously running glass factory in Europe. The company is recognized around the world for designing and producing authentic, high quality glassware with a French style.

Beautiful 'handmade' style glassware with affordable prices which are all dishwasher and microwave safe.

Features and Benefits

- Each piece of la Rochere glassware is made of a very durable and clear glass and lead free
- All La Rochere glassware is dishwasher safe
- A variety of glassware pieces available, including champagne flutes, stemware, and goblets
- Ouessantcollection contains an original mixture of clear and colour glass

Ouessant

The flagship French collection with its sleek embossment, brilliant lustre and timeless appeal is now available in a new stunning Emerald Green coloured Rocks glass.

An ideal compliment to the Olive Green and Teal Blue Rocks glasses already in the range.

The perfect water glass to add that pop of colour to the table.
