ENVISAGE® COLLECTION

Envisage the Future of Dining

The Envisage Collection unifies visionary thinking, adaptability and an innovative spirit, bringing together all of Churchill's once fired pieces into one forward looking range.

Why Once Fired?

Most tableware, particularly high performance ceramics, is traditionally fired twice. At Churchill, our once fired process reduces the energy required to produce each piece, helping to minimise our environmental impact. We began once firing cups and small bowls in the 1980s and over the decades, we've continually refined the technique, advancing it to accommodate larger items and the addition of decorative colour, without compromising on quality or performance.

Look for this logo  to signify a once fired piece.

INKED® — COLLECTION —

No Two Tables Alike

The Inked Collection brings together our latest print designs, crafted for effortless mixing and matching to create striking, individual tabletops. This Autumn the collection expands with fresh patterns and colours, including a new look for Inked - our minimal Tide White and Era White designs.

We are also delighted to introduce The Inked Portfolio. This inspirational brochure showcases the versatility of Inked, and how the different tones and textures combine to style distinctive looks for every setting.

Technical Performance

Design Engineered to Last

Our tableware is materially and design engineered to last in a professional setting, from our unique clay recipe and controlled kiln environment to durable shape design and long-lasting finishes.

Raw Materials

Our raw materials are responsibly sourced and carefully selected to create a strong, long-lasting product.

Engineered Shapes

Churchill products are engineered for professional use, with reinforced impact areas and reduced weight where possible.

Vitrification

Vitrification is essential for professional tableware, it's the process of altering the particle structure of our ceramics to create a dense and watertight body, thereby creating a stronger and more food safe ceramic product.

Glazing

Churchill ceramics are finished in a durable, scratch resistant glaze that has been specially formulated for hospitality use.

Lumé

Radial Brilliance

The Inked Lumé design evokes an energetic burst of radial light, adding brilliance to dynamic tabletops. Transforming every meal into an experience, Lumé brings drama and a sense of artistry to the table.

Available in two striking colourways, a dramatic black/blue and a softer natural tone, Lumé provides the perfect canvas for creative food presentation. Its bold pattern also lends itself to mixing and matching with other designs from the Inked Collection, allowing you to create tabletops that are either strikingly dramatic or elegantly subtle.

Era

Retro-Inspired Vibes

The Era design creates a retro vibe, with its radial print that takes inspiration from the Mod subculture of the 1950s and 1960s. An ideal platform for food, the Era pattern perfectly frames a chef's creative composition.

Launching in Autumn 2025 is a new subtle colour, Era White as well as Contour Bowl shapes in Era Blue and Grey, perfect additions for sides and sharing dishes. Also new are cups and saucers in Era Blue, ideal for a nostalgic look.
