THE ART OF PRESENTATION

steeliteutopia

THE ART OF PRESENTATION

You're not just setting a table. You're creating an experience, telling a story, sharing a culture – and food is at the heart of it. Food brings people together and connects them to tradition and inspiration.

At Steelite-Utopia, we believe that tableware should do more than serve your food – it should serve your vision. We design, craft and curate the very best in tableware for chefs and concepts across the globe.

Partnering to create an unmatched range of inspired tabletop experiences where shape, colour, texture, light and weight combine to feed the senses. Helping our customers set the stage for their menus and their brands. Elevating presentation to an art. Steelite-Utopia. The Art of Presentation.

United Through Innovation

Steelite-Utopia delivers a comprehensive and unmatched solution for the hospitality industry. Combining durable ceramic tableware with an extensive range of glassware, cutlery, buffet items, and lighting, we provide a cohesive product suite designed to meet every need of dining and hospitality presentation. Our products balance resilience with style, adhering to the highest quality standards while enhancing the dining experience through thoughtful design and expert craftsmanship.

Positioned to not only enhance its market presence but also to deliver unparalleled value to customers, offering a one-stop solution for all tableware needs with a focus on quality, innovation, and sustainability.

A truly global enterprise

With a wide range of products, Steelite-Utopia offers a unique solution for any venue. Dominating nearly every industry sector from commercial catering to leisure and hospitality markets, the opportunities are endless with our vast product portfolio. Our core dinnerware lines, Steelite Distinction and Steelite Performance, and proprietary brands, William Edwards, Utopia, Anton Black, Crown Glassware, Creations, Folio, Varick, Aspen, Strahl, D.W. Haber, Kenny Mack Designs, Hollowick and Illumina are complemented by collections from strategically chosen specialist partners.

Steelite-Utopia Logistics

The capacity of the new warehouse is more than three times greater than our original warehouses.

This allows us to hold in excess of 30,000 pallets under one roof, preventing double handling of goods and giving constant visibility of all stock using our new state of the art warehouse management system.

15 dock levellers mean there is no need to unload containers outside, bringing benefits in terms of speed, less product damage, and a better and cleaner working environment.

It facilitates our drive to improve customer service, increasing the speed of response, packaging integrity and picking accuracy.

It allows partner distributors to expand their businesses with our range of original and stylish products.

utopia
By you...

Your Brand, Your Way

A key supplier to the hospitality industry Utopia by You offer a full range of decorating capabilities, from skilfully applied hand decoration through to intricate multi-colour branding, our team have unrivalled experience and knowledge.

At the heart of our custom built production facility, is the Kammann decorating machine, German technology at the forefront of glassware decoration. The machine, which is the largest of its kind in Europe, combines pinpoint accuracy with stunningly bright UV ink technology to give unparalleled results and not just on glassware, we can offer the same capabilities on our rigid, re-usable plastics, perfect for outdoor events.

Alongside this revolutionary machine we have a skilled workforce capable of hand decoration and decal application, ensuring a breadth of capabilities second to none.

One area sometimes overlooked is our laser nucleation, using standard or bespoke patterns to aid effervescence in carbonated drinks this can be a cost effective way of re-enforcing a brand message or simply enhancing the drinking experience.

With few limitations we aim to give clients what they truly want, without compromise.

A step change in the decoration of glassware with the added benefit of not causing de-toughening of toughened glass products, which can be a problem with other decorating methods. Furthermore, the glass wash performance is greatly improved over conventional methods of decoration ensuring that the customer's brand identity is protected for a longer period.

The Utopia by You department isn't solely about the process, our team are experts in the field and available to advise on projects, ensuring our clients have the right product and decoration for their needs. We are excited for you to experience the possibilities that Utopia by You can offer, don't hesitate to contact us and discuss your requirements.

Icon Guide

Stem Zero Ion Shielding
Employs a special 'surface modification technology' increasing the strength of the glass.

Starglass
The composition of selected raw materials gives this glass a high purity in the absence of heavy metals, to ensure 100% recyclable products. Exceptional brightness and clarity.

XLT Treatment
Protecting stems from abrasion and maintaining sturdiness over time.

Infinity Colour
Colour will remain unchanged throughout the lifespan of the glass. Dishwasher safe and recyclable.

Crystal
A selection of glassware ranges that are made from fine crystal giving clarity and finer rims.

Toughened Glass
Fully toughened glassware withstands greater impact, making the glass stronger therefore increasing longevity, when it finally does break it will break into small blunt pieces increasing safety.

Toughened Rim
Many glassware items have strengthened rims to reduce chipping and breakage.

Fine Rim
A technical treatment that brings comfort and sophistication to the finish of each item. This impeccable cut not only enhances the aesthetics, but brings extra pleasure to the act of drinking.

Stacking
Items that are designed to stack when space is at a premium.

100% Recycled
Made from 100% recycled glass.

Glasswasher Safe

Rim and Foot Guarantee
The rim & foot guarantee on a selection of products allows for free of charge replacement of breakages to the rim or foot of glassware.

Activator Max
A laser nucleation technology to further enhance the appearance of carbonated drinks.

Lined & CE
Many of our glassware items can be government stamped and lined to satisfy all European legal hospitality requirements.

Polycarbonate
Polycarbonate is a very strong and virtually unbreakable plastic, the strongest plastic of all.

SAN
Styreneacrylonitrile is stronger than polystyrene and can take a high amount of usage but will break under heavy pressure.

Polystyrene
Not as strong as Polycarbonate, Polystyrene items are often used for shot glasses where strength is not as important.

Nude

Simple is Beautiful

Prepare to indulge in the pleasure of setting a table that reflects an impeccable sense of style. Crafted with a perfect blend of innovation and versatility, Nude crystal glassware ranges are designed to enhance any table setting, leaving a lasting impression.

Nude believes that things can be different and that the solution is simple

- Simple is beautiful.
- Simple is pure, clear, transparent.
- Simple is usable, clean, uncluttered.
- Simple is convenient, reliable and professional.
- Simple is all of these things and also the reason things are so rarely simple.

Nude believes that less equals more, that form works best when it meets function. Where everything is appropriate in the right place at the right time, the right delivery for the right need. Nude has created collections of lead-free crystal glass specifically for the Horeca market. The focus is on delivering elegant, practical and relevant solutions for the modern dining and entertaining experience

The products are created to enhance and enliven the atmosphere of dining, whether in a bar, bistro or restaurant. Nude is always fit for purpose. It is practical, sturdy and usable. This idea of practical and aesthetic integration is the guiding principle behind Nude.

It is simple...
It is Nude

Pasabahce

Quality glassware

With an exquisite glassware line & tremendous passion, Pasabahce has revolutionised the industry with cutting-edge technology. Producing glassware since 1935, Pasabahce takes pride in offering an unparalleled range of products, where craftsmanship meets innovation with an unwavering commitment to quality.

Pasabahce continues to be at the forefront of the industry, consistently exceeding expectations, and redefining glassware. Glassware isn't just a product; it's a canvas for unforgettable moments, and a vessel for cherished memories.

- Machine-made glass
- Wide variety of shapes and sizes with cutting-edge glass designs
- Defining features like stackability and fully tempered glass
- Great price point for value conscious consumers

Bormioli Rocco

Leading the way with state of the art glassware

Bormioli Rocco's first glassware factory dates back to 1825, but historians say the origins of Bormioli Rocco glass can be traced to the Middle Ages. With stemware, tumblers, beer glasses and iconic food storage jars gracing tables around the world, quality is the cornerstone of the foundation supporting the Bormioli Rocco brand.

The manufacturing facilities utilise state of the art technology and economically source only the best raw materials. From the finest sand imported from Germany to organic glazes used to colour glass, all are brought together in products influenced by exhaustive design research. Thanks to continuing investment in technology, research and design, Bormioli Rocco has become one of the leading glass manufacturers in the world.

BORMIOLI ROCCO

Made in Italy since 1825

Bormioli Rocco

RCR Cristalleria

Quintessential Italian design

RCR Cristalleria Italiana was born in 1967 in the heart of Tuscany, thanks to a group of craftsmen who, with passion and talent, brought the millenary tradition of glassmaking to a higher level.

Environmentally conscious ethos

All RCR Cristalleria products are made of Eco-Crystal, a material of the highest quality and made with total respect for the environment. The whole production process is completely electric while keeping an eye on consumption reduction.

- 0% Atmospheric discharge, resulting in an emission free factory
- 100% Recyclable products
- Only uses renewable energy
- Recycling 40% of water used in production
- Reducing energy consumption
- Ethical approach in sourcing raw materials

Made in Italy

Today, RCR Cristalleria stands out in the market of tableware and mixology, combining tradition with fervent innovation, design and research, aiming to satisfy those who use these products for all occasions.

RCR CRISTALLERIA ITALIANA

LUXION eco CRYSTAL GLASS

Rona

The choice of the connoisseur

Established over 100 years ago, Rona still retains its historical links with the village in which it was founded. A century later Rona is recognised as one of the world's leading manufacturers of non-lead crystal stemware.

With international quality standards firmly in place at all levels of production, Rona stemware will satisfy the demands placed upon it by the restaurant and hotel industry. In-house design, superb manufacturing facilities and a definite service-focus ensure Rona products are market leading in every aspect.

- Crystal glassware
- Special rim treatment
- Pulled stem technology
- Thermo shock toughening
- Brilliance and clarity
- Functional and elegant form
- Most collections are dishwasher safe, excluding hand blown glass

Create a custom experience

Etch your company's logo on your glassware for brand recognition while indicating the desired pour line for your staff's reference. Steelite-Utopia's 'laser-true' technology gives you the opportunity to create a unique addition to your tabletop and a cost-saving solution for your business.

RONA

Five star glass

Vicrila

Founded in 1890, Vicrila are one of Europe's leading manufacturers of glassware, a wealth of experience and quality make them a benchmark in the hospitality sector.

With a mission to provide the hospitality professional with resistant products that can withstand the pace and demands of service, while at the same time providing a unique experience in terms of elegance and aesthetics.

Fully Tempered

Vicrila tempered products are engineered to combine the thinnest possible wall with exceptional resistance guaranteeing excellent mechanical and thermal durability. The glassware is completely tempered from rim to foot, offering a product up to 5 times more resistant to breakage and cracking.

Fine Rim

A technical treatment that brings comfort and sophistication to the finish of each item. This impeccable cut not only enhances the aesthetics, but brings extra pleasure to the act of drinking.

Stackability

Optimise space and reduce handling time with a range of stackable products. All designed with tempered strength to stand up to the rigours of professional service.

VICRILA

Where excellence meets transparency

VICRILA

Crystalex

Bohemia Crystal

Crystalex builds on the world-renown tradition of Czech glassmaking taking it into the 21st century and beyond. Originally from Nový Bor, a town which has for centuries been the centre of Northern Bohemian glass industry, Crystalex offers the best of Czech glassmaking craftsmanship. Crystalex are the biggest producer of drinkware in all of Czechia and are among the foremost glass producers worldwide.

Crystal.eco

Crystalex glass is one of the most eco-friendly melted glasses ever, using a fully electrical method of heating the melting unit and inlet channels. In addition, the melting units emit minimal noise, dust and heat, thus burdening the environment as little as possible. Crystalex use melting furnaces of their own design, which are continuously upgraded and optimised for the cleanest possible operation in line with their environmental policy and applicable directives.

utopia

Crown Glassware

The ethos of Crown is simple, to bring beautifully styled glassware with stunning clarity to the table or bar at an affordable price. We believe that fine glassware should be available to all.

The collection showcases a harmonious blend of crystal glass and soda lime glass, offering a wide range of options to suit your preferences and occasions. From the dazzling clarity of crystal glass to the versatility of soda lime glass, Crown Glassware ensures that every sip is an experience to cherish.

With a commitment to affordability, Crown makes luxury accessible without compromising on quality. Each piece is thoughtfully designed and expertly manufactured to meet the highest standards, ensuring that you can enjoy the finest glassware at a fraction of the cost.

CROWN
GLASSWARE

Minners

For over 60 years, Minners has been meeting the needs of the finest foodservice establishments, specialising in custom glassware, cutlery and dinnerware, made to exact requirements with expert craftsmanship.

The Minners Classic Cocktail range of glassware has been recreated using the original glass moulds that manufactured the glasses used in the 1930's Manhattan cocktail scene and made famous in venues such as the Rainbow Room. These classic shapes have stood the test of time and have regained a relevance to today's growing mixology scene. Steelite International have obtained exclusive global distribution rights to this exciting range and are pleased to bring a unique opportunity in fine lead-free crystal glasses.

Stemware

A full range of stemware, covering all uses from wine tasting and fine dining to high volume banqueting. Each piece has been developed specifically for the hospitality market, offering functionality for the professional life that the glass has been designed for, without sacrificing style or value.

BEAUTIFULLY STRONG

Nude Stem Zero

Introducing Stem Zero made with ‘Ion Shielding Technology’.

Making it the world’s toughest, yet finest lead free crystal glass. You could say it is beautifully strong.

What if it was possible to create a glass so fine, so elegant, so exquisite, that it could almost make you feel as if it didn’t exist? That nothing came between you and the enjoyment of your favourite wine.

It couldn’t be done, surely?

The designers at NUDE asked themselves the same question, but after a huge amount of work and dedication have come up with the answer.

It is called... Stem Zero

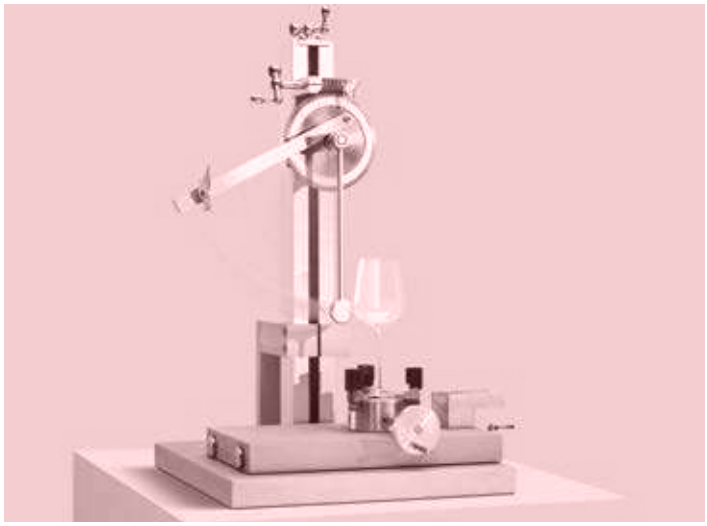

Stem Zero is a simple and elegant range of highly refined glassware made to satisfy the most discerning wine connoisseur. The glass is so fine and so light that it defies belief. Yet it is strong and reliable, suiting all manner of occasions, both formal and informal. Such is the remarkable quality of the glass that it creates a sensation of weightlessness, that the wine is being held by an invisible force, allowing you to savour the aroma and taste of wine in a way that, until now, was considered unimaginable.

The result is a glass that feels no more than a whisper, a kiss on the lips, encouraging you to enjoy wine to the full.

Some look tough but are so fragile.
Some look fragile but tougher than any other...

The new Stem Zero with Ion Shielding Technology reinforces the previously delicate collection, making it twice as strong and flexible as other handmade glasses of similar thinness.

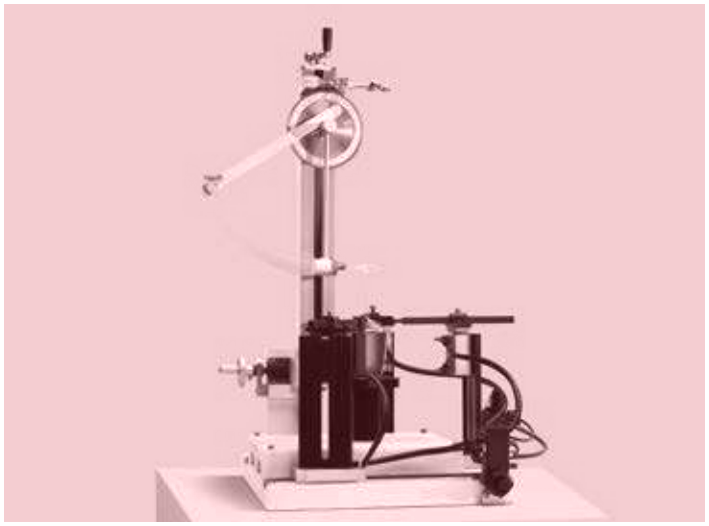

Technology

Bowl Impact Test

35% stronger

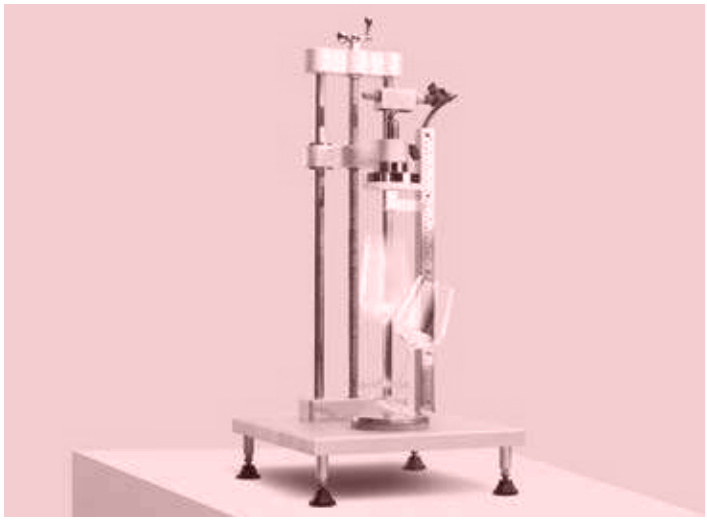

Test is performed according to the standards below:
DIN 52295 / Testing of glass – Pendulum impact test
EN 12980:2000 / Materials and articles in contact with foodstuffs. Non-metallic articles for catering and industrial use. Method of test for the determination of impact resistance.

Stem Impact Test

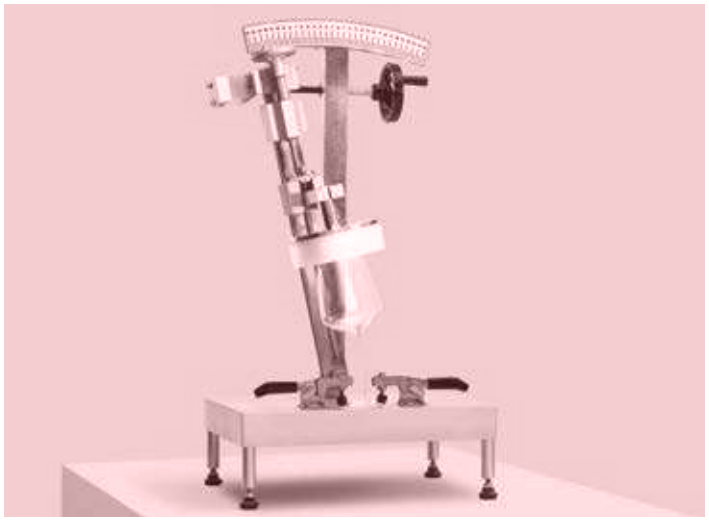

2x stronger

Test is performed according to the standards below:
DIN 52295 / Testing of glass – Pendulum impact test
EN 12980:2000 / Materials and articles in contact with foodstuffs. Non-metallic articles for catering and industrial use. Method of test for the determination of impact resistance.

Free Fall Test

(In-house method):
Glass is released for a free fall from the height of 28cm.

Bending Test

(In-house method): Up to 130
Glass is bent at a certain angle from the top of the bowl keeping the stem fixed.

Dishwasher Safety Test Up to 2,000 cycles

DIN 10511 “commercial dishwashing with glass washing machines - hygiene requirements, type testing”

Water hardness: 0-1 dH.
Temperature of detergent tank: 55°C.
Temperature of rinse agent: 65°C.
Contact time per cycle: 120s.
Detergent: Industrial type, pH < 12.6.

Stem Zero & Mana

Mana: Manchester's First Michelin Star Restaurant Since 1977

"Over the years I have been fortunate to experience some of the finest wines and stemware on the planet.

I discovered the Nude brand, with some stunning crystal glassware and in particular their beautiful Stem Zero stemware.

To fully appreciate the experience, the finest wines have to be tasted from the finest glass. For me, Stem Zero by Nude is the best crystal I have used. The combination of refinement and durability make Stem Zero perfect for a high quality restaurant like Mana.

Everyone of our guests has a wine pairing and frequently comment on the glass and enquire about its origin and availability.

For me, every wine tastes better in Stem Zero"

- Mana, Michelin Star 2019 since 2019

Tribute NEW

Timeless Japanese aesthetics

Designed by Erik Lorincz, a globally celebrated bartender. Each glass in this collection is a testament to the Japanese ethos of “wabi-sabi” - celebrating the beauty in imperfection and the quiet elegance of minimal design. The use of premium lead-free crystal ensures clarity and brilliance, while the sleek, minimalist lines reflect the timelessness of Japanese aesthetic values.

For the full range go to page 276.

Glassware

Tattoo

Evoking body art aesthetics

Tattoo is a youthful collection with a contemporary style that evokes Body Art aesthetics.

For the full range go to page 282.

Etna

The perfect imperfection

The Etna collection is inspired by the power of the eruption of the Sicilian volcano. The perfect imperfection of nature is engraved on the glasses and goblets: light is reflected on the carvings and is multiplied on different levels enhancing the exceptional transparency of the Eco-Crystal.

For matching tumblers go to page 143.

Essential

Refined design for the modern tabletop

Designed for modern and minimalist table décor, the flat bowl holds the wine in a trapezoid shape, typical of modern table settings. The refined design expresses this in the slight reopening of the rim which, in addition to enhancing the release of aromas, facilitates the sliding of the liquid during tasting and gives the glass a soft, elegant silhouette.

Aria

Ultra clear, eco-crystal

Designed for the finest table settings, Aria is the top range for RCR collections. These thin glasses are very shock resistant thanks to the high-density of eco-crystal. The design of the glass angles in from its widest point, indicating the right level of wine to be poured, while the wide cone-shaped bowl of the glass allows you to appreciate the gradations of colour at its very best.

Inalto Uno

The elegance you want, the durability you need

"In alto i calici" is the traditional Italian phrase meaning to "Raise your glasses" before a toast. The Inalto collection is Bormioli Rocco's toast to fine Italian design and was created with the restaurateur in mind; providing the elegance you want, and the durability you need. The distinctive angles and tall, thin stem beautifully enhance a table setting. The brilliancy of Star Glass provides the guest with an exceptional wine tasting experience, while the durability of the XLT strengthened stem maximizes operator value. Inalto exemplifies the passion of Italian design, grace and quality.

Toughened Saxon

Pasabahçe

Toughened Saxon is a simple, traditional range crafted using Fully Toughened glass for optimum strength, durability and safety.

Fully Toughened glassware has been strengthened across its entire body making the glass resistant to impact damage at all points. When Toughened glass does break, it will break into small fragments making it impossible to cause serious lacerations.

Tribute NEW

Timeless Japanese aesthetics

Designed by Erik Lorincz, a globally celebrated bartender. Each glass in this collection is a testament to the Japanese ethos of “wabi-sabi” - celebrating the beauty in imperfection and the quiet elegance of minimal design. The use of premium lead-free crystal ensures clarity and brilliance, while the sleek, minimalist lines reflect the timelessness of Japanese aesthetic values.

For the full range go to page 276.

Etna

The perfect imperfection

The Etna collection is inspired by the power of the eruption of the Sicilian volcano. The perfect imperfection of nature is engraved on the glasses and goblets: light is reflected on the carvings and is multiplied on different levels enhancing the exceptional transparency of the Eco-Crystal.

For matching stemware go to page 56.

Tocai

Heavy and robust

When you picture a whisky glass, you imagine Tocai. Thick, heavy and robust, just like a good whisky glass should be. Thanks to the characteristics of Eco-Crystal, it maintains the temperature of the drink much longer than a normal glass.

Inalto Uno

The elegance you want, the durability you need

"In alto i calici" is the traditional Italian phrase meaning to "Raise your glasses" before a toast. The Inalto collection is Bormioli Rocco's toast to fine Italian design and was created with the restaurateur in mind; providing the elegance you want, and the durability you need.

For the full range go to page 78.

Bodeguita NEW

Dynamic and modern

Bodeguita features a contemporary design and helical effect that gives it a dynamic and modern look. This particular workmanship not only enriches the aesthetics, but also has the function of enhancing the taste of the cocktail, thanks to its ability to favour the movement of the drinks inside the glass, thus intensifying the olfactory and gustatory sensations.

Ideal for intense cocktails, Bodeguita features SecureEdge treatment, Longer Service Life, which includes a strengthened edge, reducing the risk of breakages enhancing the tumbler's durability over time.

Toughened Glass

The hectic hospitality environment means glassware needs to withstand wear and tear while still adding style. Our unrivalled range of toughened glassware includes a wide range of tumblers, stemware and exclusive shapes.

Fully toughened glassware has been strengthened across its entire body making the glass resistant to damage at all points. This makes the glass stronger than regular annealed glass. When toughened glass does break it will break into small fragments making it impossible to cause serious lacerations. Increased durability reduces replenishment, saving money.

- Toughened glass is treated by using extreme heat and then cooling rapidly which balances the tension stored in the glass core.
- The glass tension makes the glass strong and much more resistant to a mechanical and thermal shock.
- Tension gives safe break characteristics, meaning once broken no shards or sharp edges are left.
- Toughening is across the whole glass, including the stem for safety.

Arome

The contemporary design of the fully tempered Arome glassware features a wide bowl to maximise oxygenation, enhancing the aromas and flavours of your wine. Whether in a bar, hotel, or restaurant setting, this elegant fin rimmed collection offers both durability and style.

Malbec

Generous bowls, a fine rim and a classic profile make Malbec a go to wine collection. Fully tempered for enhanced durability this collection offers a stylish serve whatever the venue.

Barshine

Stylish and Stackable

Bormioli Rocco's Barshine Collection features tempered and stackable tumblers with a 1970s design. The shape accentuates the sparkle of the glass and enhances the contents. Particularly functional, resistant, and easy to store.

For matching tumblers go to page 250.

Tribute NEW

Timeless Japanese aesthetics

Designed by Erik Lorincz, a globally celebrated bartender. Each glass in this collection is a testament to the Japanese ethos of “wabi-sabi” - celebrating the beauty in imperfection and the quiet elegance of minimal design. The use of premium lead-free crystal ensures clarity and brilliance, while the sleek, minimalist lines reflect the timelessness of Japanese aesthetic values.

America ‘20s

In line with the latest trends

These 1920s-inspired glasses bring the glamour of trendy American jazz bars through to today. All the products are characterised by an elegant and original vintage style, in line with the latest trends, and are embellished with dense facets that develop precious light effects, enhancing the colours of cocktails and drinks.

Alkemist

An alchemy of design & lightness

The success of the Alkemist range lies in combining the complexity of design with the typical lightness of a tasting glass, an alchemy that makes this line unique and inimitable. The growing demand and suggestions from some of the leading hotels and restaurants in the world led us to develop the water glass and the gin glass. The composition of the line, including goblets and glasses, is suitable for both professional and home use.

Alchemist

Alchemist offers a unique, novel and innovative serve for any cocktail that will certainly have your customers thinking “How cool is that?!” Made from Borosilicate glass, the Alchemist range is strong, durable and transparent, making it the ideal collection for showcasing dramatic and vibrant beverages. Mix up the ultimate quirky serve with Alchemist!

Can Glass

Challenge the conventional... It’s time to get creative! Choose the Can Glass in place of a conventional hiball or stem. Perfect for serving quirky cocktails, the Can Glass will get your customers thinking “How cool is that?!”

Italian Heritage

Textures typical of Italian tradition

Modern shapes are combined with rich glass decoration to emphasise their brilliance. This is a texture reminiscent of majolica, a great Italian tradition dating back to the Renaissance. For matching glassware go to page 168, 332 and 343.

Green Earth

Single use plastics are a frivolous reason to add to the global pollution problem, we need to focus on improving the way we consume and serve to make it as environmentally friendly as possible.

The Green Earth collection is focused on bringing the best product into the market, meeting all the environmental needs whilst giving our customers a way to create innovative serves.

utopia

Paper Straws

Our range of paper straws are: EN13432:2000 accredited

This certification specifically focuses on compostability making sure Utopia's non metallic paper straws adhere to strict standards concerning biodegrading so they only have a positive impact on the environment.

In other words they actually give something back to the earth when their useful life is over.

All our wooden stirrers and papers have been FSC Sourced.

Product testing

We believe in testing all our products to our own as well as industry standards. This is to make sure all our products are best in the market for how and why they are used.

Paper straws are tested against:

- Liquid absorption of different acidities and sugars
- Strength and diameter testing
- Durability with contact to varying liquids
- Ink leakage into liquid after set periods of time
- All Paper Straws are PFA free

We strive to make sure that our straws that enter the market match the level of quality we expect from all Utopia products.

Actions we have taken

- **Certified:**
  PLA Free on all straws and EN13432 certified on select straws.
- **Strong:**
  Lasts 5+ hours without unravelling.
- **Allergen Free:**
  Of gluten and beeswax.
- **Sustainable:**
  FSC certified.
- **Foodsafe:**
  Certified for the UK and EU for food safe standards.

Biodegradability...

Is a material's capacity to be converted into carbon dioxide (CO2) through the action of micro-organisms, under the same process occurring in natural waste.

- Disintegratability, namely fragmentation and invisibility in the final compost (absence of visual contamination).
- Absence of negative effects on the composting process.
- Almost complete absence of heavy metals and the absence of negative effects on compost quality.

Compostability...

Is the capacity of an organic material to be transformed into compost through the composting process. This process exploits the biodegradability of the initial organic materials to transform them into a finished product called compost.

This allows for the waste to add back to the planet rather than detract from it.

Strahl

The elegance and feel of glass, but virtually unbreakable. The beverageware of choice for some of the world's most prestigious hotels and resorts.

Beautifully elegant

All Strahl products are made of a high quality polycarbonate, a remarkable material that creates the clarity and elegance of glass. What's more, every product is hand finished to remove manufacturing join lines. The result? Beverageware that's beautiful to look at, and equally beautiful to drink from.

Exquisitely versatile

With Strahl, it's possible to entertain in style, anywhere. Our exquisite products are designed to be chilled in either the refrigerator or freezer, while superior insulation properties keep beverages at optimal drinking temperature for longer.

Incredibly strong

Unlike glass, Strahl beverageware doesn't shatter so it's an extremely safe and long-lasting alternative. Not only is it stronger, no Strahl product is complete until it has undergone a unique finishing process to extend its lifespan and durability.

STRAHL

INCREDIBLE STRENGTH

Strahl

CapellaStack

Stacking tumblers

Serving delightful cocktails from indoors to outdoors is easy with CapellaStack from Strahl. These virtually unbreakable tumblers are made of high quality polycarbonate and are conveniently designed for stacking. From storage to clean up, beverage service is more practical and cost efficient for operators with the ability to stack and the reduced risk of scratching & breakage.

Aspen Everclear Drinkware

A clear choice in beverageware

Enhance your beverage service with the virtually unbreakable Aspen Everclear Drinkware. Designed to withstand the rigours of foodservice, Aspen is a collection of drinkware made of a superior Polycrystal material that is food grade & ideal for any dining occasion. Consisting of stemware, tumblers and carafes, this range provides excellent translucency and undeniable quality.

ASPEN®

EVERCLEAR DRINKWARE

*LIFETIME BREAKAGE GUARANTEE If any piece of Aspen Everclear Drinkware breaks, cracks or shatters under normal use, we will replace that product free of charge, upon the customer returning the product at their expense. This warranty is available only to the original party who would have purchased from an authorised Steelite-Utopia dealer.

Storing:

- Never use glass to carry or store cutlery.
- Do not stack glasses that have not been designed to stack.
- Use properly sized compartmented glass racks.

Polishing Stemware:

- Use white cotton gloves or 2 cloths for polishing.
- Polish the bowl first followed by the stem and then the base.
- Do not hold the glass by the stem or the base when polishing the bowl.

Using:

- Do not pick up glasses in clusters.
- Never let the beer tap come in contact with the glass.
- Do not use glassware as an ice scooper.
- Do not put cold liquids into hot or warm glasses straight from the dishwasher as this can cause cracks.
- Pre-heat glasses for hot drinks by running them under the hot tap.

Washing:

These products are specially designed to withstand the rigours of the Foodservice and Hospitality trade, including automatic glass washers found widely in most businesses.

To ensure the quality level of the product it is important to take note of the following:

- Always wash new glasses before use.
- Always use a non-caustic detergent as caustic detergents affect head retention, etch the glass and give the glass a shadowy tinge.
- Water on the premises should be stored at 60°C. If water is stored at a higher temperature e.g. 85°C, even when this is reduced because of travelling to the machine, it could still be high enough to bake debris onto the glass.
- Coffee cups should never be washed in a glass washing machine, as coffee dregs can taint the water and stain the glasses – this also applies to drinks that contain cream.
- If cracks or chips are found in glasses, they should be discarded immediately and never put in the dishwasher.
- Gold decorated glassware is suitable for handwash only.
- After washing, remove basket and leave to cool and dry.
- Do not handle stemware when hot.

Information:

Improved working practices for the use of Polycarbonates will extend the life of the product:

- Polycarbonate drinkware is supplied with the verified CE Mark or Lined and Stamped exactly like Glassware.
- Polycarbonate Barware is dishwasher safe to a temperature of 60°C.
- When using glass washers, it has been suggested that the use of detergent without rinse aid is preferred.
- To maintain the product in its best condition, it is recommended that a low temperature wash cycle below 60°C for both wash and rinse temperature is used. The combination of detergents and raised temperatures can lead to environmental stress cracking in the plastic surface. If washer temperatures are above this then it is recommended to hand wash the plastic barware.
- It is important to make sure that the Polycarbonates are not rubbing together during the rinse cycle in a glass washer.
- It is safe to use Liquid Renovate. This will enhance the visual presentation of the product where needed.
- Regular checking of Polycarbonates to assess scratching is needed so as to offer the customer a perfect drink.
- It is important that Polycarbonates are not stacked tightly together as the inside of the product will scratch.
- Polycarbonates are quite often found on the floor and on hard floors they will scratch. Where possible Polycarbonates should not be left on the floor.
- Polycarbonate is a tough transparent thermoplastic that has many applications, which demand high performance properties.
- Dishwasher & freezer safe.
- Items must be carefully placed in the dishwasher while avoiding direct contact with other dishes and drinkware.
- Do not wash with harsh abrasives such as brushes or scrubber pads as this may cause scratches; harsh chemicals including strong acid or alkali cleaning agents should also be avoided.
- Use warm, soapy water or a neutral dishwashing liquid for cleaning.
- Dry naturally or with a soft cloth after hand washing; we recommended using a microfibre cloth to preserve clarity.
- Product can be used normally between temperatures of -30°C and 110°C (-22°F and 230°F).
- Avoid prolonged exposure to UV light, sunscreen or chlorine.
- Not recommended for use in microwaves or high temperature sterilisers.

Polycarbonate drinkware is almost indestructible, hard and rigid and in many cases virtually identical to glass. It is the preferred product for Police Forces and Local Licensing Authorities where drink related violence is an area of concern.

Although the product is virtually unbreakable it is subject to considerable wear and tear, unlike glass, which would simply break and then be replaced, regular checking of polycarbonates to asses scratching is needed as to offer the customer a perfect drink.

Utopia Drinkware:

Drinkware is supplied in four different types of plastic:

- Polystyrene – our plastics shots are Polystyrene, these are dishwasher safe up to 100 washes.
- SAN (Styreneacrylonitrile) is stronger than Polystyrene and can take a high amount of usage but will break under heavy pressure. This product is glass washer proof.
- Polycarbonate – is a very strong and virtually unbreakable plastic, the strongest plastic of all. Our polycarbonate glassware is glass washer safe up to 500 washes.
- MMS – is a transparent copolymerization primarily composed of methyl methacrylate (MMA) and styrene monomer (SM). This is glass washer safe up to 100 washes.

Polypropylene Lids, Stoppers & Bottoms:

- Do not use strong acid or strong alkaline cleaning agents.
- Temperature should not exceed more than 104°F (40°C).
- Avoid excessive water pressure as well as objects pressing on the product or it may cause deformation.
