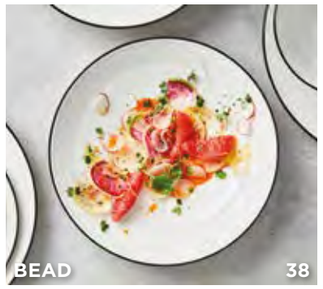
who we are

Steelite International is the world-leading manufacturer and supplier of tabletop products and buffet solutions, servicing the global hospitality industry with innovative solutions in dinnerware, metal, melamine and glass. We are committed to offering the best in technology and design while minimising our effect on the environment. Our stability and reputation in the industry has provided us with both a diverse client list and a comprehensive channel of operations. Customer satisfaction is our top priority, which requires dedication, commitment, and a passion for achieving a level of excellence far exceeding expectations.



The Nordic region has become synonymous with Chef's skills in developing dishes utilising the very best local ingredients and presenting them in a sensitive and contemporary manner.

Such an important culinary aesthetic deserves its own platform and the new Nordic range encompasses these shared design values. The simple but sophisticated plate profiles allow Chef the space to present dishes that can 'breathe' whilst simultaneously being framed by a deep, gently curving rim. This enables the ultimate showcasing of some of the most innovative and influential cuisine.

The Apple colourway is a bright, energetic and fresh hue which adds a distinctly contemporary tone to the Craft range. The growth of interest in vegan, plant-based and health-conscious menus provides an opportunity to showcase these menus differently. The Apple colourway promotes a feeling of wholesome well-being, amplifying the perceived beneficial effects of healthy eating. The overall impression is one of warmth and familiarity with the zing of spring. Craft Apple co-ordinates beautifully with many of the existing Craft colours, particularly Craft Raspberry, which offers a natural and exciting counterpoint.

When Craft was introduced into the Hospitality markets around the world ten years ago, the Craft range was the first to define what the look and feel of the ultimate Artisan inspired range should be.

nuanced artisan experience

Using reactive glazes that change in colour and intensity depending on their application, Revolution glazes are specially formulated to enhance all the nuances experienced in their execution. Applied by hand using a revolving motion, the path the brush travels across each piece is evident in the fired result. The glazed surface of each piece in the range is as different and unique as the artisan that created it. This provides an ideal platform for Chef to showcase their art, no matter what the cuisine style.

The use of hand-applied reactive glazes on Revolution Edge frames food beautifully, allowing for a slightly more formal approach to relaxed presentations. Revolution Edge allows food to be presented on a clean white platform complemented by a contrasting colour field. This has the effect of highlighting Chef's creativity, allowing it to speak for itself.

Revolution Edge can be used as a single colour presentation or mixed and matched freely with others in the range. It also co-ordinates beautifully with Revolution for a more casual and easy-going style.

crisp, timeless, and elegant styling

Bead defines a classic approach to dining, one which embodies best practice for back of the house ease-of-use while delivering beautifully presented dishes to delighted diners. This range consists of two elements: Bead and Bead Accents, which can be mixed for a personalised collection. A classic linear design is carried across the main collection of Bead items, while the Bead Accents component offers an alternative decorative style to key presentation items alongside the classic iteration. The Bead Accents decoration provides a contemporary element that adds texture and visual excitement.

The addition of a hand-applied wash of colour to the Bead range provides a subtle but refreshing accent. This softens the look and adds a casual approach to the way Bead presents food. Classic, timeless, and perfectly proportioned, the Bead range takes on a Scandinavian feel in either the truffle or sage colourways and works brilliantly in either a traditional or contemporary setting.

unique natural extraordinary

The Potters Collection by Robert Gordon includes an exciting and informal assortment of embossed plates, platters, bowls and accessories in two unique colours: Pier and Storm. Each colour has a distinct finish that is stunning on its own or can be beautifully mixed to create an unforgettable tabletop. The reactive glazes ensures that no two pieces of this Australian-designed porcelain will be exactly alike.

The new stacking plates and bowl are great for stacking back of the house, or serving stacked shares to tables; these, trendy straight-sided, round trays make the most of the plating surface, perfect for every presentation.

reducing the spread of germs

Pouring a cup of coffee or juice just got easier with D.W. Haber's Touchless Taps. Simply press a cup against the dispenser to activate the flow and pull away once filled. The Touchless Plus is hands and drip-free, and its wide-body targets the side of the glass and not the rim, which ultimately reduces the spread of germs. Made of 18/10 stainless steel, the spouts are resistant to rust and fit any D.W. Haber urn or juicer on self-serve stations and buffets.

Extra style with oval dishes and teaware shapes. The Connoisseur Teapot has been specifically designed to be utilised with the finest quality teas and avoids over brewing when combined with the Teapot Infuser. The exacting capacity means that once the first cup is poured, the remaining water level drops below the level of the tea leaves in the infuser and hence avoids over brewing.
